NIO # 411-74

Office of the Director of Central Intelligence

7 March 1974

NIO: Strategic Programs

MEMORANDUM FOR: Assistant Chief of Staff for Intelligence,
Department of the Army
Director of Naval Intelligence
Assistant Chief of Staff, Intelligence,
United States Air Force

SUBJECT : National Intelligence Production on
Foreign Strategic Programs,
February-July 1974

1. You should have received through USIB channels a memorandum (USIB-D-14.2/1, 25 February 1974) concerning planned interagency intelligence production on foreign strategic matters through July 1974. This production program was prepared under the auspices of the National Intelligence Officer for Strategic Programs in his capacity as the Director of Central Intelligence's representative for this area. Clearly the participation and cooperation of the military services will be of crucial importance in the preparation of most of these studies.

2. The DCI has reviewed and endorsed the proposed production program. The NIO for Strategic Programs has asked representatives of CIA, DIA, State/INR and NSA to identify action officers who will participate in the several projects. We would appreciate it if you would also identify action officers for those projects in which your service is listed as a principal collaborating agency. Action officers of agencies with primary responsibility are now taking initiatives to start these projects, and all would benefit from the earliest possible participation of service representatives.
